1. Main Project Structure

Level 1: Project → Level 2: Major Phase → Level 3: Unit → Level 4: Discipline → Levels 5–7: progressively detailed work breakdown. Per the user's explanation, Actual Progress is entered at Levels 6 and 7 and rolls up to higher levels according to workbook formulas.

Level	Meaning	Description
Level 1	Project	Abadan Refinery Upgrading Project - Phase 2-2
Level 2	Major Phase	Four phases listed below
Level 3	Unit / area grouping	Unit-wise rows in Construction & Installation and Pre-Commissioning
Level 4	Discipline	Discipline within each unit
Level 5	Work breakdown / package grouping	Level 5 entries as named in the source workbook
Level 6	Work Package	One of the levels where Actual Progress is entered, per user
Level 7	Detailed activity	Finest level; Actual Progress is also entered here, per user

Level 2 — Main phases

- Mobilization & Demobilization
- Construction & Installation - Overall
- Pre-Commissioning
- Assistance in Commissioning
